To All Joining Crew

08th of January 2021

Dear Seafarers,

In 2020 COVID-19 outbreak impacted all sides of our life incl. shipping. The situation remains very serious and in 2021 we continuing to fight against outbreaks of various Corona -cases.

Much to our regret we need to inform you that some seafarers onboard are infected and as outcome several vessels of Briese fleet are now forced to be under quarantine and of hire.

All Covid-19 outbreaks onboard happened 3-5 days after the last crew change.

To stabilize the situation and to protect our crew members we decided to take following measures for on signing crew members:

- 7 days home isolation without social contacts before joining. Logbook with body temperature measuring (morning and evening).
- PCR test 2 days before flight according to our letter from 24.08.2020. (annex)
- Wearing protective mask type KN95 FFP2 during the travelling to the vessel. Based on international experience this type of the mask protects the person most effectively. The KN95 FFP2 protective masks can be purchased online or in local shops. Each seafarer shall purchase 5 masks in advance. The costs will be added to TEC according to the voucher.
- Possible 5 days quarantine in the port of joining (according to BCM instructions)
- PCR test in the port of joining if required and where available (according to BCM instructions)
- 5 days reducing social contacts to other crew members on board as much as possible and according to Captain's instruction, incl. separate meal apart of each other.

All above measures are based on our present experience and for protection of all crew members travelling to the vessel and being onboard.

We highly appreciate your cooperation.

With best regards,
Briese Crew Management

I read, understood and acknowledge the above-mentioned information
